Window Perfs

A-frame- 24"x36", with 1 Dry Erase Coroplast Inserts - QTY 1

Important note about Dry Erase A-Frame Signs:

All dry erase boards stain and can be difficult to get completely clean. We recommend using only cleaners made by the marker's manufacturer. NEVER use anything with abrasives in it to clean a white board. This includes Mr. Clean Magic Erasers, Comet, and toothpaste. The abrasives create micro-scratches that capture particles of dry erase ink, and create permanent stains. Be aware of the effect that hot sunlight has. Heat softens the dry erase laminate surface allowing the marker to penetrate and bond more securely. It is recommended to do your writing and erasing inside, in cooler (air conditioned) temperatures. When bringing it in, from hot outdoors, allow it to cool off before erasing and/or writing on it.
